# FIONA MCLAY

## How to start using and leveraging low-cost scalable technology in your law firm today so that you are better placed to thrive tomorrow

I deliver a practical session on 5 common mistakes lawyer make when getting started with legal tech and what they should do instead. I show how to get started today to optimise the way you work, your client's satisfaction with your work and your firm's bottom line including:

- Improving process
- Working remotely and paperless
- Working in a distributed team
- Adopting automation tools that can assist with repetitive tasks
- Making the most of the tools you already have

Topics I have presented on include:

- 5 steps to become more tech enabled in your law firm
- Getting started with legal tech projects
- A non geek's guide to the Legaltech trends you need to know about
- 5 things you can do now to future proof your law practice

I can also customise a presentation or workshop to meet the needs of your audience.

## WHAT OTHERS HAVE SAID

Fiona and I crossed paths a few years ago now and she is someone I have learned so much from because she is my go to #legaltechguru! She is the person that just knows what tech is around and what might work for firms of all shapes and sizes

*Clarissa Rayward, Brisbane Family Law Centre*

What a brilliant presentation - such a diverse range of tech tools and good to see you don't have to be a tech wiz to get impactful results. Fiona was a fabulous host - asking questions to elicit useful information from the guests: I love her calm but enthusiastic delivery.

*CLI-ALMPA Innovation and LegalTech Virtual summit 2021*

This was brilliant - totally in the bucket of I cannot believe how many things there are in the world that I know nothing about - your calm delivery helped me to feel inspired and not to freak out

*Webinar Attendee 2021*

Fiona, thanks for your webinar for ALPMA members just now, I too have a full page of notes. I'm an Excel expert and hadn't really thought that Excel "mattered" to the lawyers in my firm, but you've given me compelling reasons to run a 'Lunch & Learn' on pivot tables and charts!

*Webinar Attendee May 2019*

I consider myself a competent user of Word, but I learned several new shortcuts and tools yesterday that will make a real difference to my work. Thank you, Fiona!

*Making the most of the tools you have (inhouse) Webinar Attendee 2020*

## Organisations I've presented to

## PRESENTATIONS
